II. Detailed Description of Front - end Page Functions

1. Home Page Switching

The home page is divided into two types: the normal home page and the time - limited home page.

The time - limited home page is used during the evaluation activity of Hurun Education ·China International Schools Ranking. It is used to meet the functions such as judge login and judge information display.

The normal home page is the official and regular home page of the official website.

The home page switching needs to follow the following discrimination process.

Chart 2 Home Page Discrimination Process

2. Normal Homepage

2.1 Weekly Elite Schools

The Weekly Elite Schools section is a BANNER on the homepage, displayed in a four - image scrolling manner. The first image is the interview of this week's elite school, and the next three images are sorted according to the chronological order of previous interviews. It can be customized through the background. There is a school search module embedded in the BANNER.

The BANNER is displayed full - screen, occupying one screen.

Clicking on the Weekly Elite Schools will redirect you to the text - and - picture page of the weekly elite school interview. Refer to the page flow in Appendix 1 for the subsequent page flow.

2.2 Choose Us

Display our advantages with H5 animations. During the initial opening period, it can be arranged in place through programming. There is no special need for modification later.

2.3 Event Announcements

It is used to display recent events and lead to the event registration page. It is presented in a list form with 1 main image and 2 auxiliary images. The main image event is automatically selected based on the date and registration rate. The main image is presented in a 1x1 format, occupying the main visual part of the module. The auxiliary images are presented in a 1x2 format, occupying the secondary visual part of the module. The main image and auxiliary images can also be set through the background.

Refer to the page flow in Appendix 1 for the subsequent page flow.

3. Time - limited Homepage

3.1 Judges' Entrance

The Judges' Entrance is a non - scrolling, fixed single - image BANNER. Clicking on it allows you to log in to the judges' background.

The BANNER is displayed full - screen, occupying one screen.

3.2 Judges' List

It is used to display the basic information of the judges, including their avatars, Chinese and English names, basic resumes, etc. Clicking on a judge will take you to the judge's detailed page. By default, a 3x2 list is displayed and can be expanded by clicking.

The judges' list is divided into the Chief Judges' Group and the Invited Judges' Group. The classification of judges is determined by the background.

3.3 Details of Judges

It is used to display the detailed information of the judges. Among them, the BANNER is the default background picture, the large - sized headshot of the judge, and the judge's Chinese and English names. The content includes the resume and honor sections, which are displayed side by side.

4. School Wiki

It is a direct hyperlink to the School Wiki website.

5. Membership Directory

It is used to display the information of the member schools of the club.

5.1 School of the Week

The interview of the School of the Week this week is used as the BANNER, which includes information such as the school name, the background photo of the school, a brief summary of the interview content, and the photo of the principal. All these can be set in the background. After clicking, you will enter the text - and - picture page of the School of the Week interview.

5.2 Elite School Search

It is used to display and search for member school units. It includes a search box, condition filtering, and a list of school information. Among them, the school information list should include basic information such as the school name, Hurun score, enrollment target, address, featured courses, tuition fees, enrollment scale, accommodation standards, and supporting facilities.

After clicking, you will enter the detailed page of the corresponding school.

6. School of the Week Interview

It is a page connected to the School of the Week module on the homepage and in the membership directory.

6.1 BANNER

The BANNER is a fixed single - picture, which can be customized in the background.

6.2 Interview Content

It is a text - and - picture module that displays the interview content and accompanying pictures.

6.3 School Introduction

It is a fixed module on the right side of the page, used to display the basic information of the school. The displayed content is the same as that in the Elite School Search section of Article 5, Section 5.2 above.

6.4 Seek Expert Advice

After clicking, you can get the contact information of the experts reserved in the background for manual connection.

6.5 Go to details

After clicking, go to the subsequent page of Article 7.

7. School details

It is the third - level page connected to the weekly interviews with famous schools and the membership directory, used to display detailed information about the school. It should include the following content:

7.1 Data overview

It is used to display the basic data of the school, including the total number of students, this year's enrollment plan, the ratio of teachers to students, the proportion of foreign teachers, tuition fees, accommodation fees, admission ratio, enrollment situation and other data.

7.2 Honorary awards

It is used to display the school's past honors over the years.

7.3 Supporting facilities

It is used to display the school's supporting facilities for teaching, entertainment, living, etc.

7.4 School overview

The introductory text content written independently by the school.

7.5 School scenery photo gallery

It is used to display the real - shot photos inside the school.

7.6 Video display

It is used to display the school's promotional video or other video content. To avoid possible costs brought by the server, in the early stage, it will be used in the form of an external link, and the official website itself will not store the video.

8. Student clubs

It is a project for the later stage and can be reserved in the early stage. The specific page content shall be subject to the subsequent development and the results of face - to - face negotiation.

9. About us

It elaborates on the content of the club. It includes the initiators and the original intention of establishment, the development history of the club, the club constitution, the membership process and grade evaluation, the display of volunteers and other content. It is presented in the form of pictures and texts, and can be customized in the background.

Edit for meaning.

10. User Login

A page for different users to log in. It's a single - screen page. In the early stage, only the school login page needs to be created. Later, it is required that the school login page and the club login page be displayed side by side.

III. Brief Description of School Back - end Functions

1. School User Registration and Login Process

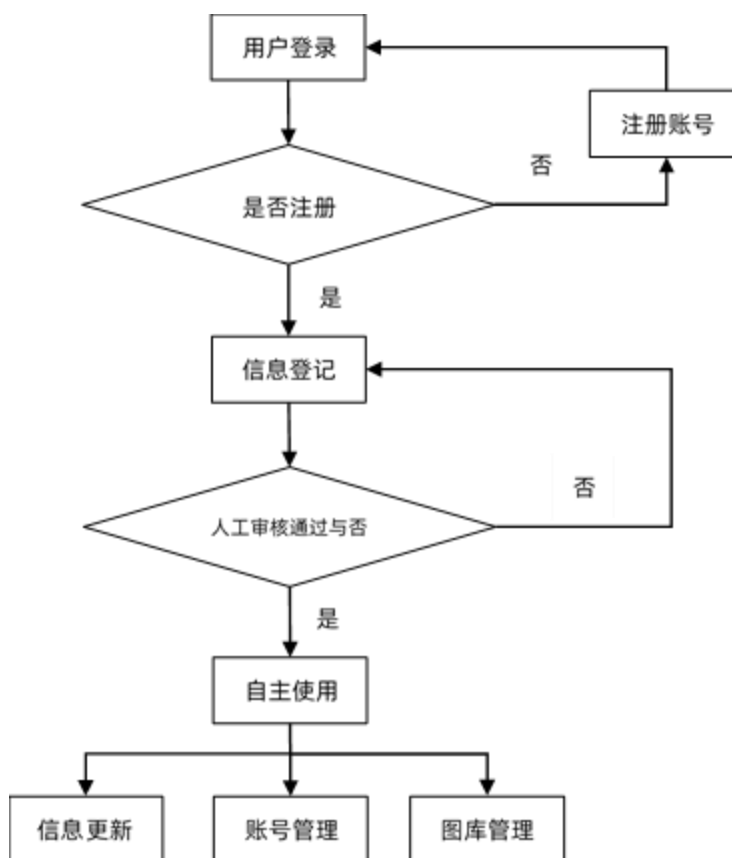

Chart 3: School User Login Process

2. Account Management Page

It is used for schools to independently manage login information, including avatars, usernames, passwords, bound mobile phones, etc.

3. Honorary Awards

It is used for schools to independently manage the honors they have won and the years. The year can be selected from a drop - down menu, and the honors can be filled in by the school in a text box.

4. Supporting Facilities

Use in the form of a tag pool, that is, schools directly select the names of the facilities they have from the alternative tags. If there is no corresponding name in the tag pool, they can create one themselves. After creation, the tag pools in the back - ends of all schools are shared.

5. Operation Log

It is used to record the operation logs of the back - end of this account.

6. Help Center

It is used to display help content. It includes functional modules such as account avatar, username, school authentication, help center, and feedback.

IV. Brief Description of the Judge's Back - end Functions

1. User Process of the Judge's Back - end

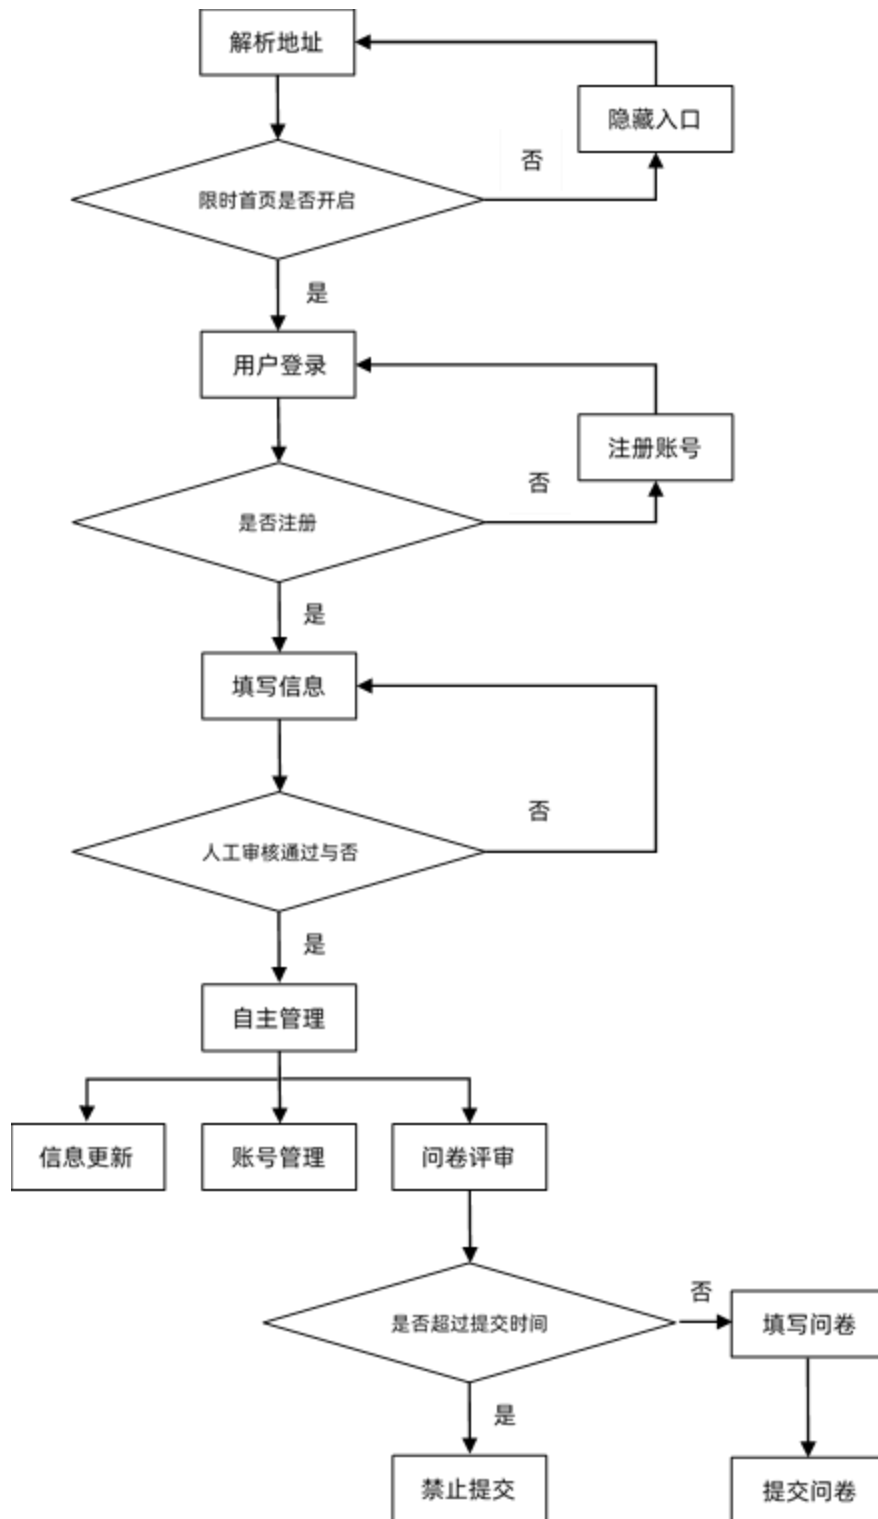

Chart 4: Judge user process

2. Login information

Used for judges to independently modify their login information, including username, password, bound mobile phone, etc.

3. Judge information

Used for judges to independently maintain their own information for front-end judge display.

Among them, since the avatar is an important display content, style demonstration content is required.

The management methods for professional resumes and honor acquisitions are the same, both using a year drop - down menu and text box input. The communication address includes content such as the mailing address, recipient, receiving phone number, email, WeChat, etc.

You can simply input all information in the text boxes. There is no need for SMS authentication for the receiving phone number in the early stage.

4. Questionnaire Review

It is used to distribute and collect questionnaires during the review stage.

It includes the fixed text content of the invitation letter and the questionnaire module.

The name of the judge should be automatically retrieved and filled in the invitation letter text, which is fixed at the top.

The questionnaire module is a scroll - down menu presenting the questionnaire content. The questionnaire content can be freely set in the background. There is a countdown to the deadline below the questionnaire submission button. After the countdown ends, questionnaire submission is prohibited.
